

11th grade AP Biology students

Welcome to AP Biology!

You will be accessing your summer assignment through Google classroom. I encourage you to **join our class immediately**.

The join code is **ao6t2hp**

Your summer assignment is (or, will be) uploaded onto Google classroom. There will be two parts:

1- **A review of graphing skills and practice free response writing**. This will be accomplished through portions of actual free response questions that will be assigned through the Google classroom.

2- The first unit that we cover is Ecology, and your summer assignment will **require you to learn sections of this topic on your own**. Ecology videos created by me will be posted on Google classroom, along with accompanying note packets. You must take notes in the note packets while watching these videos (either printed out or digitally). These videos are posted as Edpuzzles with embedded questions that you must answer. I will only briefly review the contents of these videos in class upon our return, I will not re-teach the material. There will be additional Ecology material that I will teach you in class.

My recommendation would be to complete the graphing packet earlier, and save the ecology videos closer to when you return to school- I want to make sure the material is fresh in your head. (Don't leave them all until the night before school starts, though- you will be overwhelmed!).

There is no AP Biology textbook that you will be given.

Don't hesitate to be in touch if you have any questions. Wishing you all a relaxing and enjoyable summer. I'm looking forward to teaching you next year!

All the best,

Mrs. Slomnicki
